

SMT-BK280LZ

LZ Bracket for Electromagnetic Locks

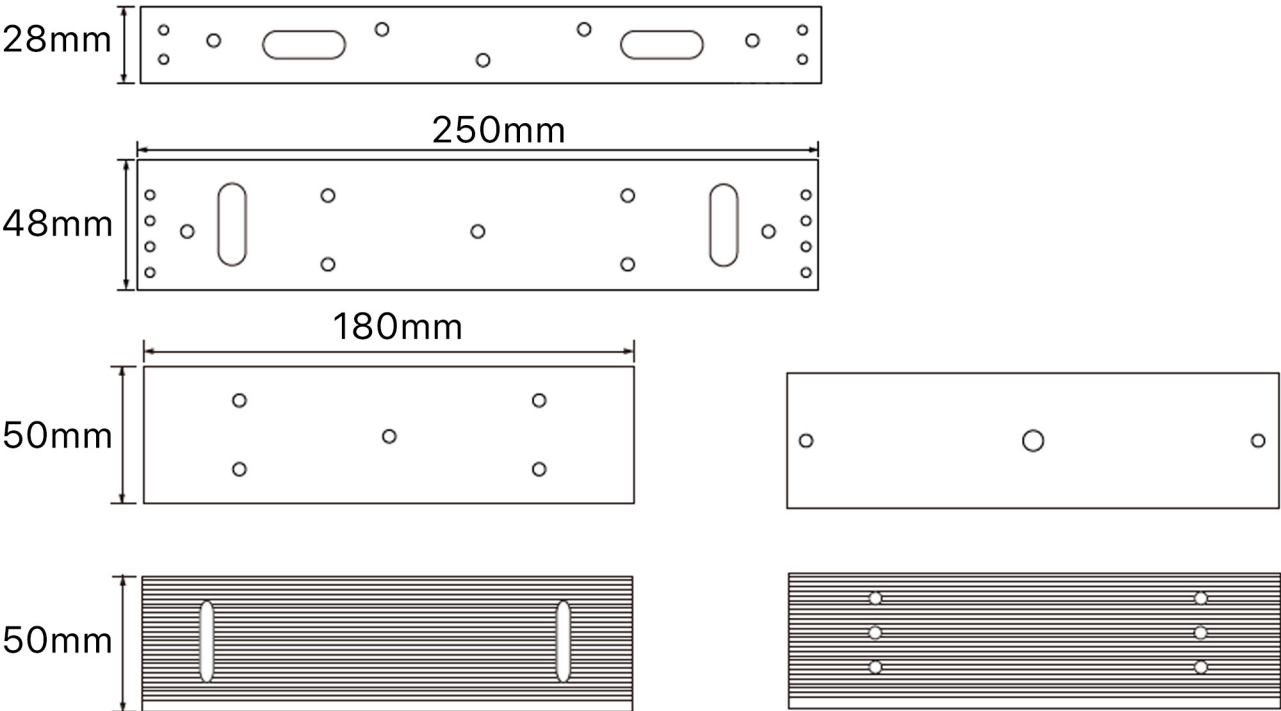

The **SMT-BK280LZ** is a premium LZ bracket specifically designed for use with the **SMT-ML280 Series** electromagnetic locks. Crafted from **high-strength aluminum alloy**, this bracket ensures reliable performance in demanding access control applications. It is suitable for various door types including **wooden, glass, metal, and fire-rated doors**.

With its thickened one-piece construction, anti-slip contact surface, and **adjustable screw holes**, the SMT-BK280LZ offers a **durable, easy-to-install**, and secure mounting solution. Ideal for projects that require both strength and installation flexibility.
