

SMT-BK800U

Electronic Bolt Lock – U-Bracket

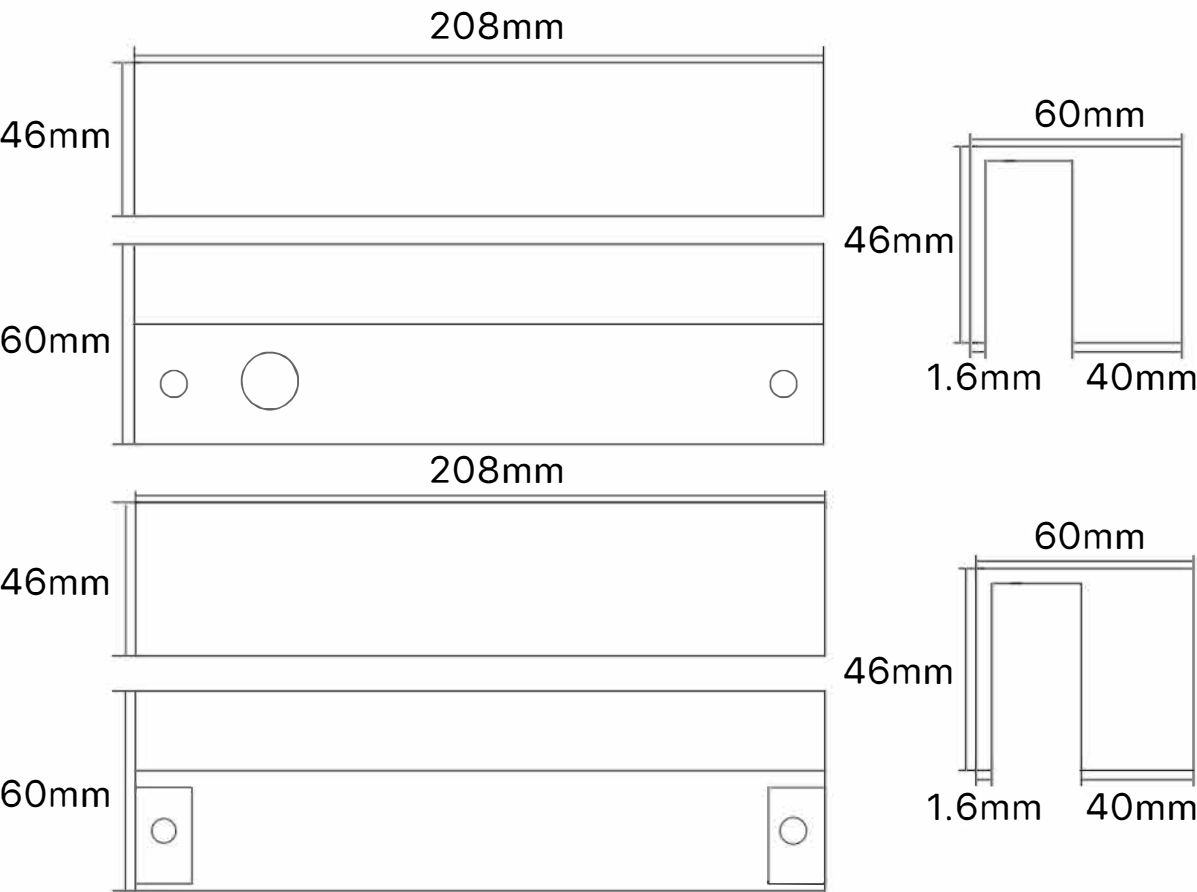

The **SMT-BK800U** is a precision-engineered U-bracket specifically designed for mounting electronic bolt locks on fully frameless glass doors. Crafted from premium-grade stainless steel, it offers exceptional durability, corrosion resistance, and mechanical strength for long-term reliability in access control environments.

- Purpose-Built Design:**
Tailored for bolt lock installation on frameless glass doors without structural modifications.
- Robust Construction:**
Made from high-quality stainless steel for enhanced strength and longevity.
- Secure & Stable:**
Provides firm support for electric bolt locks, minimizing vibration or misalignment.
- Streamlined Installation:**
Easy-to-install structure, ideal for retrofit and new access control deployments.
- Sleek & Minimalist:**
Blends seamlessly with modern architectural aesthetics.

Model	SMT-BK800U
Function	Frameless Glass Door
Magnet Size (mm)	208 x 46 x 60
Material	Stainless Steel
Weight	0.28 kg
Compatibility	SMT-BL800ST

Dimensions (mm)

Compatible brackets

SMT-BL800ST
